afternoon Gentlemen

I offered to link this community safety event in with your annual community meeting. I've not heard back from you yet so am wondering how this has been received. Can you please let me know if this is of interest so we can sort out arrangements please. Possible dates for Little Horton meeting from the Police are given below.

regards

Sheila

Ward Officer

Subject: FW: Possible dates for the Crime/Safety Roadshows in your ward areas

Hi both

Hope you are well. I met with John Toothill to look at the possibility of organising crime/safety road shows in each of the 6 ward areas for East, and John has kindly sent the dates that officers can be available to support this. Please check the dates below for your particular wards and let me and John know what date is best for your ward? John can then start to assign staff to the events.

Please also advise on the best timings for this event in your ward area and also a community venue, where you think we can hold this event? Ishaq and I will try and put a flyer together for this, but if you have any ideas for this, please feel free to share. I have attached last year's flyer, but we want to improve on this, if at all possible?

The attached plan will give you an idea of who we are wanting to invite so far. Feel free to contact others who you feel are relevant to attend too in your particular ward.

Jo, I have your dates for Idle (11th September at Wright Watson Centre from 6-8 pm) and 19th September 2019 for Thackley, venue to be confirmed. You have agreed to get back to me with dates for Greengates.

Ishaq/Sheila, I look forward to hearing from you with regards to your ward areas and dates as indicated below.

For Bolton & Undercliffe, I have contacted St James Church and am awaiting to hear their availability of the community hall before I book the date for this event in that ward. I will also contact the Eccleshill Mechanics Institute to see what is the best date for the Eccleshill event to be held in their community hall.

Kind regards

Yasmin Ali
